### Context for 2011

Examinations in these courses were compulsory for Year 12 students who were studying a pair of Stage 2 or Stage 3 units, unless they were exempt.

In 2011, there were 23,564 Year 12 students. Comparatively, there were 23,153 in 2010, 21,561 in 2009, 20,444 in 2008 and 21,186 in 2007. The number of students who achieved graduation has gradually increased since 1999 when the Year 12 student achievement data was first released:

	2006	2007	2008	2009	2010	2011
Eligible for a WACE	18,817	19,121	18,853	19,830	21,296	21,621

Percentage of eligible cohort	95.9	96.0	96.0	96.2	97.3	97.4

### Interpreting data tables

The data tables are about the achievement of students at schools and should not be used to draw simplistic conclusions about the performance of schools. The following general qualifiers should be recognised:

- Many factors affect student achievement, some of which are outside the control of schools. These include differences in ability, cultural and language background, educational background of parents and economic differences.
- No single table or data source should prevail in drawing conclusions about the performance of students at schools. A more realistic picture is gained from a composite view of all tables.
- The statistics of a single year should not be considered in isolation, rather the trend or pattern over a number of years should be considered.
- Small numbers of candidates at a school can bias inferences, particularly with percentages.

The data that will be of interest to the community are the proportions, at each school, of:

- all students who achieved a Western Australian Certificate of Education (WACE).
- students who sat the WACE course examinations and who achieved a WACE course score of 65 and above.
- students who sat the WACE course examinations and who achieved a WACE course score of 75 and above.
- vocational education and training (VET) students who completed 220 or more nominal hours of VET.
- VET students in a school who completed at least one AQF VET Certificate II or higher qualification.

There are three sets of tables presented.

1. The first set of tables identify the schools with 100 per cent achievement of the WACE and first 50 schools, in rank order, for each of the last four criteria mentioned above.
2. The second set of tables list all schools, in alphabetical order, for each of the criteria mentioned above, plus WACE course unit completions for each school, WACE course unit achievements at Stage 2 and Stage 3 for each school, schools with the highest achieving students in each Stage 2 and Stage 3 WACE course, VET qualifications achieved for each school and endorsed program completions for each school.
3. The third set of tables presents the Year 12 State statistics for 2011.

# **Achievement Tables**

## **2011**

## 2011 Student Achievement Tables

The following tables present a number of different ways to represent the relative achievements of students at different schools. These tables do not contain information about the 'value adding' of schools to each of their students over their years of senior secondary schooling. A school may appear in none of these tables but may have improved, significantly beyond expectation, the achievements of its students during these years.

Each way of presenting data has its limitations, and conclusions drawn from these tables must be made cautiously. For example, and in relation to the 75+ table, a school may have a large number of students with WACE course scores of 74, but no students with a WACE course score above 74, and hence the school will not appear in this table. Thus, failure to appear in this table does not imply that students at this school have not performed well.

### 1. Schools with 100% graduation

This table shows each school that achieved 100% graduation. To be eligible to graduate, students must have had the opportunity to complete the Curriculum Council requirements to receive a Western Australian Certificate of Education (WACE). In some instances, students may be included in the 'eligible to graduate' statistic even though these students have a very limited capacity to achieve graduation. An example of this may be a foreign exchange student who is completing a full suite of WACE courses but who will be unable to achieve English language competence.

Schools with less than 20 full-time eligible Year 12 students are not included.

### 2. First 50 WACE course examinations schools (WACE Stage 3 course score of 75+)

This statistic is based on the count of Stage 3 courses in a school where a WACE course score of 75 or above was achieved. This count of courses takes into account students who achieved at this level in one or several courses (e.g. a student who achieved four WACE course scores above 75 is included in the calculation four times). This count is then converted to a percentage of the total Stage 3 courses examined at the school.

The table recognises schools which have a high proportion of students who have achieved the excellent standard in a WACE course - i.e. a WACE course score of above 75.

Schools with less than 20 full-time eligible Year 12 students are not included.

### 3. First 50 WACE course examinations schools (WACE Stage 3 course score of 65+)

This statistic is based on the count of Stage 3 courses in a school where a WACE course score of 65 or above was achieved. This count of courses takes into account students who achieved at this level in one or several courses (e.g. a student who achieved four WACE course scores above 65 is included in the calculation four times). This count is then converted to a percentage of the total Stage 3 courses examined at the school.

The table recognises schools which have a high proportion of students who have achieved the excellent or high standard in a WACE course - i.e. a WACE course score of above 65.

Schools with less than 20 full-time eligible Year 12 students are not included.

#### **4. First 50 VET schools – participation**

This table shows the percentage of students in a school who completed at least 220 nominal hours of VET. Schools are ranked according to the percentage of students who have completed 220 hours or more. This level of participation equates to the time required to complete four WACE course units.

Schools with less than 20 full-time eligible Year 12 students or with less than 10 students enrolled in at least 1 VET unit of competency have been omitted.

#### **5. First 50 VET schools – achievement**

This table shows the percentage of VET students in a school who completed at least one AQF VET Certificate II or higher qualification. Schools are ranked according to the percentage of students who have completed at least one AQF VET Certificate II or higher qualification.

Schools with less than 20 full-time eligible Year 12 students, or with less than 10 students enrolled in at least 1 VET unit of competency, have been omitted.

## Schools with 100% graduation

This table displays schools which have achieved 100% WACE graduation.

To be included in the table a student must be a full-time Year 12 student who is eligible to graduate. The students must have results for at least 20 WACE course units (or equivalent). Eligible to graduate in the current year means that a student would graduate if he or she obtained a grade in all current year course units. This includes students with results from every year on record, and students who have Year 11 equivalent achievements.

Graduation means 'achievement of a Western Australian Certificate of Education (WACE)'.

The requirements to qualify for a WACE are:

### ***Breadth and depth***

Students must complete at least 20 units, of which at least 10 must be from WACE courses.

- The 20 units must include at least three two-unit combinations from different WACE courses and also include:
  - four course units from English, Literature and/or English as an Additional Language/Dialect studied over a minimum of two years post Year 10 (a minimum of two of these units must be completed in Year 12) and
  - a minimum of one pair of course units from each of List A (arts/languages/social sciences) and List B (mathematics/science/technology) in their final year.

### ***Achievement standard***

Students must achieve a C grade average or better across 10 course units.

- These 10 units must include:
  - the last two-unit combination completed in three different courses
  - one unit from each of two other different courses
  - other units with the highest achievement to make up the balance of the 10 units.
- Endorsed programs and/or vocational education and training (VET) credit transfer (stand-alone) can reduce the number of course units and courses required by up to 40 per cent.

### ***English language competence***

Students must meet the standard for English language competence as defined by work samples; typically this is a C grade or better in any Stage 1 or higher English unit (except 1A and 1B for English as an Additional Language/Dialect).

Schools with less than 20 full-time eligible Year 12 students are not included.

The data in this table are about the achievement of students at schools and should not be used to draw simplistic conclusions about the performance of schools. The following general qualifiers should be recognised:

- Many factors affect student achievement, some of which are outside the control of schools. These include differences in ability, cultural and language background, educational background of parents and economic differences.
- No single table or data source should prevail in drawing conclusions about the achievement of students at schools. A more realistic picture is gained from a composite view of all tables.
- The statistics of a single year should not be considered in isolation, rather the trend or pattern over a number of years should be considered.
- Small numbers of candidates at a school can bias inferences, particularly with percentages.

The data in this table are about the achievement of students at schools and should not be used to draw simplistic conclusions about the performance of schools. The following general qualifiers should be recognised:

- Many factors affect student achievement, some of which are outside the control of schools. These include differences in ability, cultural and language background, educational background of parents and economic differences.
- No single table or data source should prevail in drawing conclusions about the achievement of students at schools. A more realistic picture is gained from a composite view of all tables.
- The statistics of a single year should not be considered in isolation, rather the trend or pattern over a number of years should be considered.
- Small numbers of candidates at a school can bias inferences, particularly with percentages.

## First 50 VET Schools – achievement

A 'VET qualification' is a nationally recognised training qualification which is comprised of groupings of units of competency developed by industry. A 'full VET qualification' refers to completion of the required number of units of competency for a particular qualification.

### Number of VET students

This column refers to the number of full-time eligible Year 12 students who were enrolled in at least one VET unit of competency.

### Achieved a Certificate II+ in Year 12

This column refers to the number of VET students in the school cohort who have completed at least one AQF VET qualification at Certificate II or higher.

### %

This column refers to the percentage of VET students in the school cohort who have completed at least one AQF VET qualification at Certificate II or higher.

Schools with less than 20 full-time eligible Year 12 students or with less than 10 students enrolled in at least 1 VET unit of competency have been omitted.

The data in this table are about the achievement of students at schools and should not be used to draw simplistic conclusions about the performance of schools. The following general qualifiers should be recognised:

- Many factors affect student achievement, some of which are outside the control of schools. These include differences in ability, cultural and language background, educational background of parents and economic differences.

- Small numbers of candidates at a school can bias inferences, particularly with percentages.

# **Curriculum Council 2011 student achievement data**

## Table 1: 2011 WACE achievement

The following notes provide definitions and explanations of each of the data columns in Table 1.

### **Number F/T eligible Year 12 students.**

This column provides the number of full-time eligible Year 12 students registered at the school.

A 'full-time' student is in Year 11 or 12 and has results for at least eight Curriculum Council course units (or equivalent) in the current year, and in addition is eligible to graduate. A 'result' in a course unit means the awarding of one of the grades A, B, C, D, E, or U (unfinished).

### **Number**

This column refers to the number of full-time eligible Year 12 students who completed graduation requirements.

Graduation means 'achievement of a Western Australian Certificate of Education (WACE)'.

The requirements to qualify for a WACE are:

#### ***Breadth and depth***

Students must complete at least 20 units, of which at least 10 must be from WACE courses.

- The 20 units must include at least three two-unit combinations from different WACE courses and also include:
  - four course units from English, Literature and/or English as an Additional Language/Dialect studied over a minimum of two years post Year 10 (a minimum of two of these units must be completed in Year 12) and
  - a minimum of one pair of course units from each of List A (arts/languages/social sciences) and List B (mathematics/science/technology) in their final year.

#### ***Achievement standard***

Students must achieve a C grade average or better across 10 course units.

- These 10 units must include:
  - the last two-unit combination completed in three different courses
  - one unit from each of two other different courses
  - other units with the highest achievement to make up the balance of the 10 units.
- Endorsed programs and/or vocational education and training (VET) credit transfer (stand-alone) can reduce the number of course units and courses required by up to 40 per cent.

#### ***English language competence***

Students must meet the standard for English language competence as defined by work samples; typically this is a C grade or better in any Stage 1 or higher English unit (except 1A and 1B for English as an Additional Language/Dialect).

### **Percentage**

This column expresses the number of students who graduated as a percentage of all students eligible to graduate.

#### ***General Points***

- Schools with less than 20 students are omitted.
- Canning College, Cyril Jackson Senior Campus, North Lake Senior Campus, Tuart College, Australian Technical Colleges, overseas schools, Schools of Isolated and Distance Education and primary schools are omitted.
- All Students totals and per centages refer to totals and percentages for all eligible Year 12 students

## **Table 5: 2011 Vocational Education and Training – participation and achievement**

This table gives a breakdown of student participation and achievement in VET. VET in schools is often delivered as an option in the mainstream curriculum, and offers students practical learning, introduces them to the world of work and provides employability skills.

An AQF VET qualification is a nationally recognised training qualification which is comprised of groupings of units of competency developed by industry. The achievement of an AQF VET qualification refers to completion of the required number of units of competency for the particular qualification.

The following notes provide definitions and explanations of each of the data columns in Table 5

### **Number F/T eligible Year 12 students**

This column provides the number of full-time eligible Year 12 students registered at the school.

### **Completed at least one uoc in Year 12**

These columns refer to the number and percentage of full-time eligible Year 12 students who completed at least one VET unit of competency.

### **Completed at least 220 nominal hours of VET study in Year 12**

These columns refer to the number and percentage of full-time eligible Year 12 students who completed 220 or more nominal hours of VET in Year 12.

### **Completed Certificate I in Year 10 to Year 12**

These columns refer to the number and percentage of VET students in the school cohort who have completed an AQF VET Certificate I over years 10 to 12.

### **Completed Certificate II in Year 10 to Year 12**

These columns refer to the number and percentage of VET students in the school cohort who have completed an AQF VET Certificate II over years 10 to 12.

### **Completed Certificate III or higher in Year 10 to Year 12**

These columns refer to the number and percentage of VET students in the school cohort who have completed an AQF VET Certificate III or higher over Years 10 to 12.

### ***STS010 – Year 12 provider statistics (for a school)***

This report consists of seven sections and can be downloaded from SIRS using the following pathway:  
reports > other reports > report type: statistics > report: Year 12 provider statistics.

#### **Section 1: Summary school statistics**

##### **1a** *Student population*

This provides the number of Year 12 students who completed at least one course unit or equivalent and the number of repeaters, re-enterers, overseas students and mature age students.

Note: 'Completing' a course unit is defined as obtaining either a grade (A, B, C, D, or E) or U notation in the course unit.

'Repeaters' are Year 12 students who complete at least one course unit or equivalent in the year following first enrolment in Year 12.

'Re-enterers' are Year 12 students who complete at least one course unit or equivalent more than one year after first enrolment in Year 12.

'Mature-age' students were aged 19 or more on 1 March of the year in which their results were awarded.

##### **1b** *Western Australian Certificate of Education (WACE)*

This provides the number of full-time students who are eligible to graduate (eligible to achieve the WACE), achieve English language competence and who graduated (achieved the WACE).

The WACE signifies that students have met the breadth and depth, achievement standard and English language competence requirements in their senior secondary schooling. The Western Australian Certificate of Education (WACE) is awarded to students who have successfully met the requirements for breadth and depth, the achievement standard and English language competence in their senior secondary schooling.

For 2011, these requirements were:

### *Breadth and depth*

Students must complete at least 20 units, of which at least 10 must be from WACE courses.

- The 20 units must include at least three two-unit combinations from different WACE courses and also include:
  - four course units from English, Literature and/or English as an Additional Language/Dialect studied over a minimum of two years post Year 10 (a minimum of two of these units must be completed in Year 12) and
  - a minimum of one pair of course units from each of List A (arts/languages/social sciences) and List B (mathematics/science/technology) in their final year.

### *Achievement standard*

Students must achieve a C grade average or better across 10 course units.

- These 10 units must include:
  - the last two-unit combination completed in three different courses
  - one unit from each of two other different courses
  - other units with the highest achievement to make up the balance of the 10 units.
- Endorsed programs and/or vocational education and training (VET) credit transfer (stand-alone) can reduce the number of course units and courses required by up to 40 per cent.

### *English language competence*

Students must meet the standard for English language competence as defined by work samples; typically this is a C grade or better in any Stage 1 or higher English unit (except 1A and 1B for English as an Additional Language/Dialect).

The detailed requirements for achievement of the WACE are provided in the information paper *The WACE – Your Guide to the Western Australian Certificate of Education, Statement of Results and Course Report 2011* and also on the Council's website at [http://www.curriculum.wa.edu.au/internet/Senior\\_Secondary/The\\_WACE/WACE\\_Requirements](http://www.curriculum.wa.edu.au/internet/Senior_Secondary/The_WACE/WACE_Requirements)

It has been agreed, in consultation with stakeholders, that the percentage of graduating students should be calculated from a base population consisting only of those full-time Year 12 students who could have achieved the WACE (if they had achieved at a suitable standard). The population of full-time students eligible to achieve the WACE is also used as a base when calculating the numbers of WACE examination students, course unit students and VET students.

#### *1c WACE course unit students*

This gives the number of full-time students who are eligible to achieve the WACE, and who obtained results (i.e. a grade A, B, C, D, E or U notation) in at least two course units.

Also, included is the number of these students who obtained a grade of A in at least one course unit.

Generally, students taking fewer than four Stage 2 or Stage 3 course pair of units in Year 12 are not able to obtain an ATAR, so they may be regarded as not aspiring to university study in the following year.

#### *1d WACE examination students*

This gives the number of students who are eligible to achieve the WACE, and who obtained four or more WACE course scores. Usually students aspiring to enter university need at least four scaled scores to obtain an ATAR.  
Also, included is the number of these students who obtained a WACE course score of 75 or more.

**1e** *VET students*

This gives the number of full-time students eligible to achieve the WACE who enrolled in at least one VET unit of competency in Year 12.

Also reported are the number of students who achieved VET qualifications in Year 10, Year 11 or Year 12 and the number of students who achieved a Certificate II or higher in Year 10, Year 11 or Year 12.

Students in this category may also be included in category 1c or category 1d.

**1f** *Endorsed program students*

These students are defined as full-time students who are eligible to achieve a WACE, and who were enrolled in at least one endorsed program.

Also reported is the number of students who achieved a result in at least one endorsed program.

Students in this category may also be included in category 1c or category 1d.

## **Section 2: WACE course units**

Table 2 gives the distribution of full-time students eligible to achieve the WACE, by the number of course units completed by each student.

## **Section 3: WACE examination courses**

Table 3 gives the distribution of full-time students eligible to achieve the WACE, by the number of WACE course examinations sat by each student. Sub-totals show the number of students who sat the WACE examination in enough courses to obtain an ATAR (at least four) and the number who sat the WACE examination in less than four course exams. The number of WACE examination courses sat by a student is defined as the number of WACE course scores obtained.

## **Section 4: VET studies**

VET credit transfer units of competency count towards achievement of the WACE. Where VET units of competency are integrated in Council courses, they cannot be used to claim VET unit equivalents.

Table 4a shows the distribution of unit equivalents achieved for VET units of competency amongst full-time students eligible to achieve the WACE. A total of 55 nominal hours of VET credit transfer units of competency is equivalent to one course unit.

Table 4b shows the distribution of VET qualifications achieved amongst full-time students eligible to achieve the WACE. Students who have achieved more than one VET qualification will be counted as many times as they have achieved qualifications.

## **Section 5: Endorsed programs**

Endorsed programs count towards the achievement of the WACE.

Table 5 shows the distribution of unit equivalents achieved for endorsed programs amongst full-time students eligible to achieve the WACE. A unit equivalent of an endorsed program is equivalent to one course unit.

## **Section 6a: Summary of students' results by grade for course units**

Table 6a shows the number and percentage of Year 12 students awarded each of the grades (A, B, C, D and E) for each WACE course unit by gender. In addition, statistical tests have been carried out to compare the performance of:

- i) males against females within the school group and within the State
- ii) the school group against the whole State cohort.

Under the heading **better performing group** the following entries may be found:

<b>Entry</b>	<b>Meaning</b>
Males	In this school, males had higher grades than females.
Females	In this school, females had higher grades than males.
School	Students in this school had higher grades than the State average.
State	Students in this school had lower grades than the State average.
NS	The statistical test showed no significant difference between groups.
-	No test was carried out because there were not enough candidates.

### **Section 6b: Summary of students' completions for P stage course units**

Table 6b shows the number of Year 12 students who completed P stage course units by gender.

### **Section 7: Summary of WACE course scores**

Table 7 shows the distribution of WACE course scores achieved by students for each Stage 2 and Stage 3 course (i.e. pair of units) offered at a school.

This distribution is shown in two different ways:

- i) summary statistics of mean, maximum, minimum and standard deviation of WACE course scores
- ii) counts and percentages of students with WACE course scores in each of the achievement five bands (or standards).

For comparative purposes, the same information is provided at the State level.

### **STS009 –Year 12 State statistics**

This report follows the same format as the Year 12 School Statistics for 2010 report, but applies to the whole of the Western Australian senior secondary education system. This report can be downloaded from SIRS using the following pathway:

reports > other reports> report type: statistics > report: STS009: Year 12 State statistics or STS009 – Year 12 State statistics Part 2.

Results for all WACE course units are tabulated. The only statistical test is a comparison of males against females.
